FIRST AID PERSONAL PROTECTION

Recognizing the fact that all businesses have some level of need for First Aid supplies, we have updated and expanded our First Aid product line, incorporating products that meet the 2015 ANSI Standards. Whether the need is for a small, compact First Aid Kit for company vehicles or multiple large 100-person kits for a manufacturing warehouse, FastServ is prepared to meet those needs. Incorporating current technology, our newest First Aid Kit includes an APP that can be used to monitor inventory levels of kit components and place orders.

- » 25-persons Kit
- » 100-persons 3 shelf kit
- » 200+ person 5 shelf kit
- » Unitized First Aid Kits
- » Kit component refills
- » Head & Face Protection
- » Bloodborne Pathogen
Bodily Fluid Spill Kit

Smart Compliance First Aid Cabinets

Being prepared can be key in keeping a simple first aid incident from turning into something more serious. It is important that workplace First Aid cabinets be regularly monitored, and supplies refilled as needed. The new line of SMART COMPLIANCE ANSI First Aid Cabinets make that job easier. Featuring the SmartTab ezRefill System, maintaining your first aid stock is quick, easy, and cost effective. Reminder tabs notify you when it is time to reorder supplies and puts reorder information at your fingertips. The Smart Compliance kits also provide you with access to a mobile requisition app that allows you to monitor cabinet usage to stay compliant and know when to reorder your refills. The solid steel case comes with a carrying handle and can be mounted on a wall or other flat vertical surface. Available in three sizes.

150 Person Extra Large Metal SmartCompliance First Aid Cabinet with Medication

The 150 person, XL metal SmartCompliance ANSI B+ cabinet with over the counter medication is perfect for an industrial setting or a large corporate office. The unique cabinet design eliminates disorganized and missing supplies, while the clearly labeled compartments create a cabinet that is easy to use and restock. The bottom shelf and door shelves allow you to customize your cabinet to meet your specific needs.

PERSONAL PROTECTION EQUIPMENT

Personal Protection Equipment (PPE) is equipment worn to minimize exposure to hazards that can cause serious injuries or illnesses. These injuries and illnesses can a result of exposure to chemicals, radiological, physical, electrical, mechanical, or other workplace hazards. Safety standards established by OSHA guide what types of PPE are required in the workplace to protect employees against safety risks. Employers have a responsibility to provide the appropriate PPE to their employees. The primary areas of concern are respiratory, eye, hand and hearing. Identifying the needs of our customers, we offer a line of PPE to enable employers to keep their workers protected from on the job hazards.

- » Disposable Gloves
- » Respirators
- » Hearing Protection
- » Eye Protection
- » Miscellaneous Protection
- » Work Gloves
- » Head & Face Protection
- » Safety Glasses
- » High-Visibility Clothing
- » Welding PPE

SHOP SUPPLIES SAFETY

Safety equipment goes beyond standard PPE. There are a lot of items that are specific to tasks and are used to protect workers. These items could be preventing slips and falls, electrical shocks, or provide early warning signals to other potential hazards. Safety supplies are not confined to just indoor use. There are various types of safety products that are designed for outdoor use to eliminate possible injuries.

- » Lanyards
- » Signage
- » Flashlights
- » Harnesses
- » Cones
- » Wipes
- » Tapes
- » Locks
- » Protection

CHEMICALS PROTECTION

There are a lot of chemical-based products that play an important role in any safety program. Whether it is paint signifying safety zones, products for spill control, or surface cleaners, it is important to have products that will keep the work environment safe. The optimum situation is for employees to feel confident that their work area is maintained in a safe condition. Anticipating and preparing for what is needed to maintain a safe working environment protects employees and avoids costly work delays.

- » Marking Paints
- » Sorbent Pads and Rolls
- » Snow and Ice Melters
- » Sorbent Spill Kits and Removers

Product Variety

Our extensive product range allows for simple, consolidated shipments and billing. With access to more than one million products, FastServ truly is your single source MRO supplier.
